| State Assessments | Proficiency rates and Growth are each compared with: (a) resident district schools with comparable demographics, (b) resident district, and (c) state average subgroups. NorthStar Ratings | Evidence that the school is increasing student achievement when compared with its traditional counterparts for the same grades served. Current NorthStar improvement designations may reflect inadequate student achievement. |

| Local Assessments (provided by School) | Determined by assessment | |

**OPERATIONS**

| Board Capacity | Skill sets, experience, actual governance (e.g. board material review) | Evidence of a variety of skill sets and experience; Evidence that the board adequately governs, critically evaluates, and strategically leads the school |
| Compliance     | Reporting and state law requirements | Significant and/or multiple and/or repeated compliance deficiencies, without satisfactory explanation, generally reflect inadequate operational compliance. |

**TIP:** Friends of Education believes that one of the best indicators of future performance is past performance and, consequently, places great emphasis on and comprehensively evaluates a school’s historical performance. In that spirit, a successful application generally reflects:

For Academic Performance, an historical record clearly demonstrating
- consistently strong student achievement or consistently increasing student achievement
  **TIP:** include a matrix showing achievement over time

For Financial Performance, an historical record clearly demonstrating:
- (1) multiple external audits with no material or significant deficiencies, or attention to deficiencies
- (2) consistently solid fund balance or a consistently increasing fund balance.
  **TIP:** include a matrix showing audit results / fund balance over time
